ROLLOVA Info:

Before you use ROLLOVA, please read the product instructions and all precautions carefully. If you have any questions, please visit the HOZO Design website for relevant information. Or send an e-mail to: sup.porthozodesign@gmail.com for advice on the use of products.

Safety information:

This product should not use incompatible batteries and external power; this product is non-rechargeable, these actions may cause product damage, fire, explosion or other hazards.

This product can only be used with accessories approved by the manufacturer. If customers purchase and replace parts with third-party accessories, this action may break the warranty for this product.

Please use this product to measure when the temperature is in the range of 0 °C and 35 °C. If the ambient temperature is too high or too low, it may reduce the life of the components in the product or cause product malfunction.

Do not put this product in water or use in extremely humid conditions. This action may damage the internal circuit board of the product.

Please replace and dispose the batteries according to local regulations. They should not be treated as household waste. Improper disposal of batteries may lead to environmental pollution.

Product Statement:

ROLLOVA electronic ruler is a creative measuring tool; the measured length data is only providing a reference for your work, the measurement of length value is not protected by law. In the case of accuracy, please use other measuring tools to proofread the values.
